

Kootenay Boundary
Patient Advisory
Committee & Community

People driving patient & family-centred care.

Join our group of passionate citizens working together to make a difference in health care in Kootenay Boundary.

Who we are. The Kootenay Boundary Patient Advisory Committee & Community (PACC) is a group of people working together to bring patient voices on important issues to health care providers & policymakers in our region.

What we do. We bring our experiences as patients & community members to help move the health care system towards a patient & family-centred, equitable place where all people can get the timely help & information they need to optimize their health.

Your voice matters. Our health care system is transforming & patient voices are central. The more voices we have on the PACC, the better we can represent what people need from their health care providers & our health care system.

Get involved. PACC participation is inclusive, respectful & open to all Kootenay Boundary citizens. There are several ways you can get involved in our patient advisory work! Visit our website or get in touch to learn more.

Visit our website at www.kbpacc.ca to learn more about our work & how to get involved.
